Kasane (Botswana) is almost part of the Chobe National Park as there are no boundary fences separating the village from the park. In fact, game such as elephant and hippo are often spotted in Kasane. If on the lookout for game in the area, pay a visit to the large, dead trees along the Sedudu Valley Road as they often act as temporary homes for leopards. These aren't the only enticing trees in Kasane – the village is also the proud owner of an old baobab tree whose tree trunk was once a local prison.

Kasane is the main town servicing Chobe and the Linyanti.

Activities

Chobe National Park Game Viewing including park fees

Chobe National Park Game Viewing

The Chobe National Park in Botswana is only a 1¼-hour drive from Victoria Falls. It is one of the greatest game reserves in southern Africa, famous for its elephant numbers. The Chobe River and Caprivi flood plains provide a haven for huge herds of buffalo, elephant, zebra, wildebeest and impala which are followed closely by lions, hyenas and leopards and the bird life is exceptional.

Thebe River Camp

Thebe River Safaris is ideally situated for visitors to the Chobe Park and Chobe River area in Northern Botswana. The lodge and camp overlooks the placid Chobe River and echo the surrounding bush with a rustic design. Thebe River Safaris is 12 km from the Kazungula border and 5 km from the Chobe Park entrance. There's a restaurant and bar providing welcome food and drinks and visitors can enjoy the sparkling swimming pool.

Overnight: Thebe River Camp including all meals

Day 3: Thebe River Camp, Kasane

The Chobe River forms the northern boundary of the Chobe National Park, renowned for its reliable and diverse game viewing. Safaris are conducted both by boat and on land. This section of the park is best known for its elephant and hippo populations but the waters attract all manner of game including large herds of buffalo and the lions that prey on them.

Today will be spent working in nearby Kazangula with **Elephants without Borders (EWB)**, which is a charitable organisation dedicated to conserving wildlife and natural resources, through innovative research, education, and information sharing with all people, striving to encourage mankind to live in harmony with wildlife and the natural world.

Past Oxley student (Year 12 2006), **Dr. Tempe Adams** works for EWB and apart from other projects she assists incoming student research. Her main role is investigating human-elephant co-existence, focusing on elephant and wildlife's use of small-scale corridors in an urban landscape and their adaption to increasing development. It is hoped that we can assist her with some of this.

Day 5: Nata Lodge, Nata

Transfers

Date	Pick Up	Drop Off	Time
3 Oct 2018	Thebe River Camp	Nata Lodge	TBA

This small village, situated 180km north of Francistown, is a popular stop-over destination on the way to or from Maun and Kasane (both 300km away) further north. The white sand, tall termite mounds and Mokolwane palm trees are a feature of the area around this village.

Nata is the best place from which to explore the eastern section of the Makgadikgadi Pans. Nata Bird Sanctuary is only 10km away and a visit here can be rewarding at the right time of year with large flocks of flamingos and pelicans which breed here each year.

Activities Included

Makgadikgadi Pan Excursion

Makgadikgadi Pan

The name Makgadikgadi means “vast open lifeless land” and is located to the south-east of the Okavango Delta and surrounded by the Kalahari Desert. It is one of Botswana’s lesser known parks; and is not a single pan but many separated by a sandy desert.

The park is known as one of the largest salt flats in the world, although it is not always dry. Heavy rain falls from mid-November filling the dry, salty, clay crust with water and grass, which remains until April or May. At this time the land becomes a refuge for migrating birds and animals including the huge zebra migration and large elephant herds. However, during the inhospitable dry season very little wildlife exists.

Overnight: Nata Lodge [View iBrochure](#)

An oasis set among the Mokolwane palms on the edge of the pans. It is ideally situated close to the entrance to the Nata Sanctuary and is just off the main road, 10 km from Nata village. This is the junction to the Okavango, Chobe and Francistown areas.

The Nata River delta feeds the Sua Pan in the Nata sanctuary and forms the breeding ground for a host of water birds including pelicans and flamingo in their thousands, transforming the shore line into a pink haze blending into the western sky. Nata Lodge offers guided tours in open safari vehicles into the sanctuary, not to be missed.

Overnight: Nata Lodge including all meals

Day 6: Planet Baobab, Gweta

Transfers

Date	Pick Up	Drop Off	Time
4 Oct 2018	Nata Lodge	Planet Baobab	TBA

Known as the gateway to the Makgadikgadi Pans, the tiny old Botswanan village of Gweta is a pleasant place to stay while exploring the vast salt pans. Take a guided walk or quad bike ride through Gweta's surrounds and discover flint-head spears and other artifacts abandoned by the area's early Stone Age inhabitants. Experience a barbecue under the star-studded African sky while sipping on traditional, organic sorghum beer or a creamy baobab milkshake. During the rainy season, the Gweta area teems with zebra and wildebeest and these, in turn, attract hungry predators such as lion and cheetah. If a unique and interesting getaway is what you are after, Gweta won't fail to impress.

Activities Included

Planet Baobab Ntwetwe Pan tour

NTWETWE PAN DAY TRIP

Duration of the activity: Approximately 6.5 hours

Drive across the vast grasslands, past lonely baobab sentinels to the edge of Ntwetwe Saltpan. Along the way, your Guide will explain the incredible adaptations of the species that are unique to the Kalahari Desert environment.

Head off with your Guide to explore the surrounds in search of bat eared foxes, ground squirrels and other unique desert species. Learn of their incredible struggle against the elements of Africa's harshest wilderness.

Get up close and personal with a resident gang of habituated meerkats; see how these incredibly social, superbly adapted animals interact with each other and their environment. You also get the chance to view the desert through the eyes of a Meerkat – which, despite the fact that it's only a foot off the ground, is a pretty spectacular vantage point, and definitely one of the most special and memorable game experiences you will encounter in Botswana.

On reaching the lunar landscape of Ntwetwe Saltpan, the bigger of the two Makgadikgadi salt pans, and after listening to a brief safety chat, zoom off for a lightning tour of the archaeology, geology and zoology of the area. Explore the vast nothingness of the Makgadikgadi in an ecologically correct fashion leaving only a shallow track that will be washed away by summer rains.

Breath-taking views of vast expanses of sparkling saltpan extend as far as the eye can see.

Search for the stone tools that remain scattered on the surface of the pan, while your guide gives a comprehensive explanation of the manufacture of stone tools and the evolution of man himself.

PART 3 – WORKING WITH THE SEDIE & MATHIBA SCHOOLS COMMUNITIES (MAUN, BOTSWANA)

8-14 Oct 2018 Maun Accommodation at Sitatunga Camp Site (all meals included) TBA

Students will be immersed in the cultures of two Maun schools. By living and working in a close knit community for a week students get many more rich experiences than the model where you drop in for a day, paint a wall, have a game of soccer and leave. In addition, by learning about the community in advance in Geography, Global Perspectives and Design and Technology, students will be well aware of the community into which they are going. Indeed, in many cases the students in the developing world have much to offer and we can kick start friendships months in advance of meeting. We can also keep the relationships going after our Oxley students return to Bowral. Indeed, students may ultimately choose to take a GAP year in these developing world communities.

Students will be embedded within the school to work on designated tasks including joining high school lessons, creating a cultural programme and teaching English at Mathiba Primary School. We can also play sport with them - although they are the National Basketball Champions so we should be wary.
