7-12 Awards Policy

Preamble

It is the responsibility of all members of staff to contribute to the appropriate recognition of student achievement through the Awards system. While the Awards Committee will take primary responsibility, all members of staff are encouraged to nominate students according to the agreed procedure. A System of public recognition assists greatly in the promotion of excellence and commitment to the College and the College Values as a goal of achievement. The ideal is for the achievement of excellence to be seen in the context of intrinsic benefit and as a means to exercise responsible membership of the Oxley community. Striving for excellence for the sake of recognition is to be discouraged, both generally and in the Awards system.

Coaches of Firsts teams and coordinators of various groups have a responsibility to keep records and present students to the committee.

The Awards Committee will consist of the Head of College, Deputy Head (Learning), Deputy Head (Pastoral) Senior School, the Director of Co-Curricular, , the Sports Department and the Head of the Arts. Input may also be requested from other appropriate staff as needed.

The purpose of the Awards Committee is as follows:

1. To regulate the Awards making process in accordance with this policy.
2. To ensure continuity, comparability and maintenance of standards over all spheres for which Awards are made.
3. To review, from time to time, the policy on student recognition and Awards.
4. To regulate and approve the insignia for the Awards.

7-12 Awards Policy

Principles

1. Distinct spheres of student achievement are identifiable and worthy of public recognition. These include:
 - 1.1 Academic
 - 1.2 Cultural
 - 1.3 Sport
2. There are two main criteria in terms of which Awards should be made.
 - 2.1 Excellence of actual performance not merely potential, enthusiasm or commitment.
 - 2.2 Worthiness in terms of conduct and attitude to receive the Award and to wear its insignia. This criterion applies particularly in the context of the activity but consideration will be given to worthiness in a general school context.
3. Awards should be graded in order to discriminate between different levels of achievement and, the higher the level of achievement demanded, under criterion 2.1, the greater should be the attention given to criterion 2.2 in making the Award.
4. Awards should be prized. For higher Awards especially, a principle of conservatism maintains the value associated with the Award and the esteem in which it is held. Where no suitable candidates can be identified, no Awards should be made.
5. A prime concern of the Awards Committee is to ensure continuity, comparability and maintenance of standards between Awards and over time.
6. Awards remain essentially for **senior students, that is, students in Years 11 & 12 or in Firsts teams**. Exceptional achievement in other years may be recognised.
7. Awards may be made at any time although the committee will usually meet at the end of season. The end of a season in sport may be a natural opportunity for consideration but Awards need not be limited to seasonal nomination.
8. The College reserves the right to withdraw Awards where there is clear affront to the criteria on which the Award was made.
9. The Awards Committee also has the responsibility of appointing winners of Special Awards for Year 12 that are awarded at Speech Night.
10. The Awards Committee may identify other areas for Awards and establish the criteria for them.

Awards Policy

The Awards

The Awards are made at three levels:

Tab

Half Colours

Colours

These three Awards may only be made in activities which come within the official aegis of College activities.

A Special Recognition Award may be made to a student whose individual achievement in a co-curricular activity is exceptional. The Award is reserved for students whose achievement is above and beyond the level recognised by a Colours Award for that activity. The student must have achieved this level via College representation and, where applicable, the relevant pathway (for example, through the ISA/NSWCIS pathway in sport) and not independently of the College, such as via membership of a local club or association. A student receiving this award will have demonstrated exemplary leadership in their activity, and achievement that is equivalent to State and/or National level. The Special Recognition Award is given at the sole discretion of the Awards Committee. The committee will maintain a very high benchmark for the achievement of this award to retain its exclusivity.

The Special Recognition Award will be displayed on a student's blazer on a Tab Award with blue writing and gold trim. The wording on the Tab should reflect the team or activity for which they are being recognized e.g. Australian Schoolgirls Football Team.

Procedure

The Co-curricular Administrator will schedule meetings of the Awards Committee and gather nominations.

Recommendations are to be in writing and to include details of performance, commitment, representative status and any other relevant achievement which may assist the Committee in its deliberations. Normally participation in House activities will not be a significant determinant.

The Awards Committee will consider the nominations in the context of Awards made in previous years. The intent is to ensure continuity, comparability and maintenance of standards over all spheres for which Awards are made.

Decisions on Awards will normally be achieved by consensus. Where this cannot be reached, the final decision will rest with the Head of College.

If a student wishes to question or appeal a decision they will do so by contacting the relevant member of the committee .
