

Canvas: How Parents Can Add Students To Observe

Part 1: Getting a Pairing Code

1. The first thing you will need is a Pairing Code from your child's account. To get this, your child will need to log into their Canvas account, then:
2. Go to > Account and then go to Settings to get a PAIRING CODE.

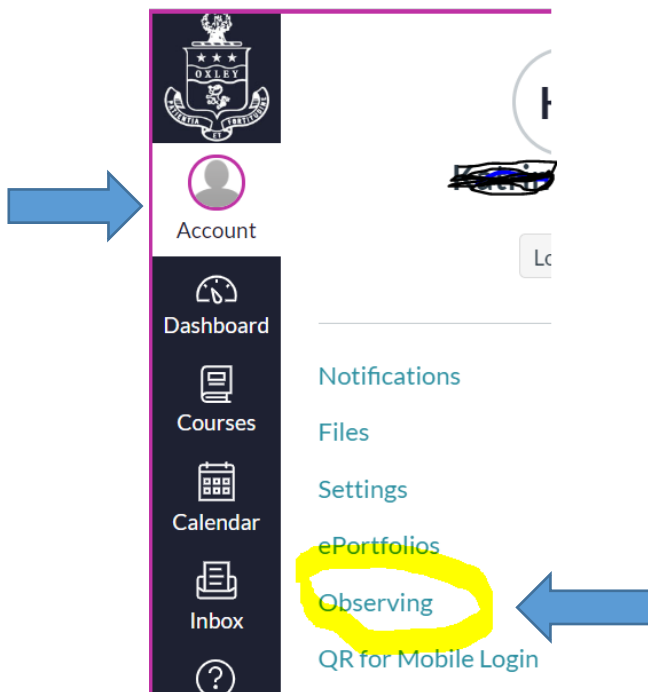

3. On the right side of the screen they will need to press the button:

4. Copy the Pairing Code that is generated.

Part 2: Pairing the student to your account

1. Go to <http://oxley.instructure.com> and login to your Parent account
2. Go to Account > Observing

3. Copy in the Pairing code into the blank field and hit + Student button.
